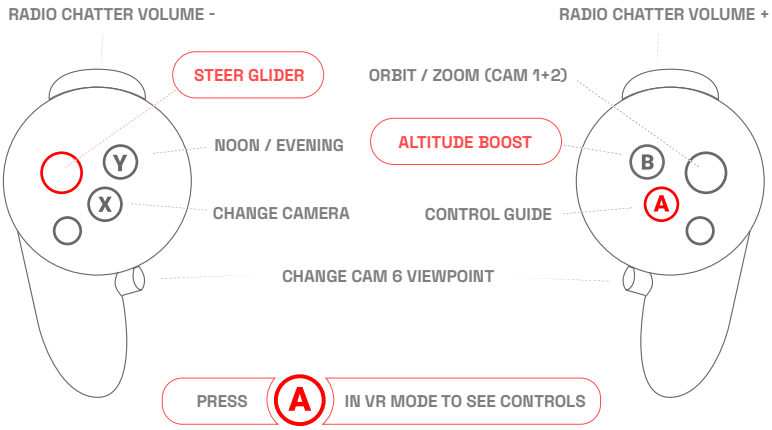
Quest 3



Experience the game in VR

To experience GliderVR on your VR headset, navigate to **https://glider.simcoe.co.uk** in a browser window on a Quest 3. Then click on the **ENTER VR** button within the browser window. The game will start and gliding will commence!

Activating GliderVR Radio

Fly around with cinematic, atmospheric music.
In VR: Press the left joystick button (push down on joystick) and the right joystick button to change the track. **On desktop:** Use Q to activate radio and E to change tracks.

Control References

Press the **M** key on desktop at any time to see the controls. For Quest 3 version, print out this page for reference during gameplay.

Desktop
